

UNITED NATIONAL GROUP OPENS NEW DIVISION FOR ALLIED HEALTH FACILITIES

Bala Cynwyd, PA, July 14, 2005 – United National Group is pleased to announce the opening of its new division for Allied Health Facilities. Targeted classes include home healthcare agencies, supplemental medical staffing, hospice, dialysis centers, medical testing laboratories, substance abuse rehabilitation and outpatient rehabilitation facilities for the impaired. Paralleling general healthcare spending and an aging population, estimated premium potential for this sector of the professional liability market is \$1 billion. Producers and their customers will benefit from the flexibility regarding limits and deductibles and breadth of coverage.

General and professional liability are offered on a non-admitted basis on an occurrence or claims made policy. Available coverage parts include monoline professional liability or professional liability in combination with optional general liability with primary limits up to \$3M / \$5M. Coverage automatically includes coverage for the medical director, and defense costs are in addition to policy limits. Optional coverages include Blanket Additional Insured, Per Location Aggregate, Limited Sexual / Physical Abuse, Non-Owned Auto, Stop Gap and Employee Benefits Liability.

Product development and underwriting management will be directed by Cheryl Kleinke from United National Group's newest field office in Scottsdale, Arizona. Cheryl has more than 20 years experience in underwriting general liability and medical professional exposures. Most recently with Fireman's Fund Specialty, her contributions produced consistent growth and profitability as the senior underwriter and program manager for medical facilities.

Marketing and program administration will be distributed through three professional general agencies.
